School of Nursing
Department of Family & Community Health Systems/Clinical Enterprise

Family Nurse Practitioner Faculty

The University of Texas Health Science Center San Antonio (UTHSCSA), School of Nursing (SON), is forging partnerships that offer cutting-edge opportunities for collaboration and programming that position the School for national recognition. The dynamic faculty is committed to excellence in nursing leadership through innovative teaching, quality research, compassionate care and community service. The vision of the SON is to become a national model for inter-professional educational excellence that uniquely prepares graduates for the challenges of today’s health system.

The UTHSCS SON is one of five schools in a thriving and vibrant South Texas Medical Center, dedicated to serving the South Texas community and beyond. Research centers such as the Barshop Center for Aging, Cancer Therapy and Research Center, Academic Center for Evidence Based Practice and the Center for Community-Based Health Promotion in Women and Children provide extensive intra- and inter-disciplinary teaching and research opportunities in a multicultural environment. This well established School of Nursing with over 120 faculty and 9,000 professional graduates, offers BSN, MSN, DNP and PhD programs of study. San Antonio’s health care systems such as Baptist, Christus Santa Rosa, Methodist and University provide rich opportunities for collaboration.

Position Responsibilities

Candidates with national certification as a family nurse practitioner are invited to apply for full or part-time faculty positions within the SON Clinical Enterprise.

Responsibilities include:

- Serves as an advanced practice nurse providing primary health care in collaboration with physicians and other members of the health care team for a specific patient population in the outpatient setting.
- Maintains an advanced knowledge base and skills in health promotion and maintenance, disease prevention, physical, developmental and psychosocial assessment, and management of health and illness in the health care of individuals, families, and communities.
- Conduct exams and physicals. Diagnose illness and prescribe medication. Candidate may serve as a lead APN, mentor and role model. Collaborate with nurse practitioners at the Student Health Center, Employee Health & Wellness Clinic and two community project sites.
- FTEs may be performed at any of the four sites; hours may vary.
- Provides clinic cross-coverage for patient care as needed.
- May supervise RN/MA at clinical sites.
- State licensure as an RN and MSN with certification as a family nurse practitioner.
**Qualifications**

Successful candidates will have:

1. Master’s degree in nursing,
2. Previous teaching experience, national certification as a family nurse practitioner.
3. Doctoral degree preferred.

We particularly encourage applications from individuals with experience in teaching, research and practice. Candidates with additional research, teaching, or credentials in the following are preferred:
   - Health Disparities,
   - Chronic Disease Management,
   - Palliative Care, Cancer Prevention and
   - Management, Health Informatics,
   - Health Systems Design,
   - Evidence-Based Practice and/or Public Health.

**To Apply:**

Applications and nominations/recommendations will be reviewed beginning immediately, and will be accepted until the positions are filled. Applications should include the following:

1. Letter outlining interest and experience
2. Current curriculum vitae
3. Names and contact information for three references; one to these be a recent supervisor. (references will not be contacted without the candidate’s permission)

Send by e-mail or regular mail a letter of intent, to:
