

## Communities of Interest:

The community of interest to the UT Health Science Center at San Antonio School of Nursing encompasses groups and individuals who have an interest in the mission, goals, and expected outcomes of the nursing school and its effectiveness in achieving them. The community of interest ranges from the local to the global and comprises all stakeholders of the nursing programs. Stakeholders include students, faculty, administration, student organizations, and alumni in addition to external constituencies such as prospective students, employers, practicing nurses, clients, regulatory bodies, the community/public of South Texas and beyond.
